

Figure 17: Stage Transfer Stability — PENDING

Figure 17: Stage Transfer Stability

Requires full Stage B/C training runs.
Stage B/C smoke tests passed (code verified).
Full multi-stage training pending HPC GPU time.

Expected analysis:

- Stage A -> Stage B MTO map correlation
- Stage B -> Stage C MTO map correlation
- μ/α prediction retention after adding IR/Raman/UV
 - Subspace similarity across stages
