

Figure 18: Frozen Probe Reuse — PENDING

Figure 18: Frozen Probe Reuse

Requires frozen probe experiment:

1. Train Stage A ($\mu + \alpha$) — COMPLETE
2. Freeze backbone + MTO module
3. Train only Stage B/C readout heads
4. Compare vs from-scratch and full fine-tuning

Code ready: `src/mto/analysis/frozen_probe.py`

Config ready: `configs/frozen_probe.yaml`

Experiment pending HPC GPU time.
